Snow College-Six County Area
Math 1050, 1060, 1210 Concurrent Enrollment Agreement*– April 2014

Snow College and the Utah state public school districts from the six counties (Juab, Millard, Piute, Sanpete, Sevier, Wayne) that it serves agree on the following academic qualifications for adjunct status for high school teachers to teach Snow College's Math 1050, 1060, and 1210 courses in high schools in those districts. Future alterations of this agreement will be made according to need as determined by a body of administrators and other leaders from the institutions involved.

Preferred Option
Applicants for adjunct status must have a Master's degree in Math or Math Education. The course will follow the traditional concurrent enrollment model. The student's final grade will be determined by a minimum of three midterm tests, a departmental final exam and no more than 25 percent homework. A Snow College Department liaison will work with high school math instructors to ensure course rigor and quality.

Second Option
Instructors must have a Level 4 math endorsement or the equivalent as determined by courses previously passed. The student's final grade will be determined by a minimum of three midterm tests, a departmental final exam and no more than 25 percent homework. The final exam and at least one of the midterm tests will be written, proctored, and scored by the Snow College Math Department. A Snow College Department liaison will work with high school math instructors to ensure course rigor and quality.

_____   _____
Gary L. Carlston, Snow College   Steve Hood, Snow College

_____   _____
Kari Arnoldsen, Snow College Math Dept. Chair   Rick Robins, Juab School District
