

# FISCAL YEAR 2022 GENERAL FUND BUDGET

This has been a year like no other in our college's history. COVID-19 has impacted every aspect of operation, and - through the selflessness, grit, tenacity, and dedication of our students, faculty, and staff - we were the only institution in the state (and quite possibly in the nation) to offer 90% of our classes face-to-face through this pandemic. We have reallocated resources to support many good things happening on our campuses, and we necessary adaptations, and the federal government has appreciate their advocacy and understanding. Being given substantial relief funds to help with COVID-19 related expenses. All of that - plus a general overview and notable changes, key legislation, tuition and fee note of Snow College. information, current financial data, and a list of all retirees - is included in this budget document. What We have learned a lot this year. We have been reminded isn't accounted for in the many lists of numbers is the amount of hours our employees spent navigating As an institution, we are stronger and better than ever through the pandemic. The fluid situation demanded before. The best is yet to come! countless changes and modifications to our traditional "business as usual," and our Badger Nation stepped up, President Bradley J. Cook

made the best of difficult circumstances, and delivered a quality Snow College education to our students.

The state legislature and citizens of this great state, as well as stakeholders and donors, have supported us through the past 18 months of uncertainty. They recognize the recognized with four gold medals this year by the Best of State organization is further proof that people are taking

that we are capable of far more than we may believe.

**SNOW COLLEGE FY22 GENERAL FUND BUDGET SNOW COLLEGE FY22 GENERAL FUND BUDGET** 

## **General Overview and Notable Changes**

The following pages outline the Snow College FY22 general fund budget as proposed by the Administration. A complete summary of the annual budget appears at the end of this narrative.

Snow College is one institution with two campuses, one being in Ephraim and one in Richfield. Fiscal Year (FY) 2021 saw many changes occur on both campuses.

This past fiscal year will be remembered for the College's response to the COVID-19 pandemic. In late FY2020, the College shut down and transitioned to online education for the remainder of the spring semester. Many of those restrictions endured through FY2021, but Snow College was committed to providing a face-to-face education and ensuring that students received the type of personalized education that makes Snow College, Snow College. These restrictions allowed Snow College to maintain >90% of classes in a face-to-face environment, leading the State of Utah and undoubtedly among the top across the nation. Despite the challenges this past year, there were many positive things that happened at Snow College.

The College successfully completed a \$5 million capital campaign, designed to fund need-based scholarships. This successful campaign was made possible by more than 500 donors and has already benefited nearly 1,700 students.

On the Richfield campus, the College received approval from the State to construct student housing. This project is supported by the Sevier County Reinvestment Agency which has pledged approximately \$1 million towards the project. The College anticipates that adding student housing to the Richfield campus will help the College's enrollments on the campus grow and provide a traditional college experience to students located in Richfield.

After years of declining enrollment, Snow College saw increasing numbers of students; truly remarkable given the pandemic. The enrollment growth was a strong message that students want a face-to-face education and want the type of education that Snow College offers. Enrollment at the College for fall semester in fiscal year 2021 had a headcount of 5,875 students. This represents 425 more students compared to fall semester in fiscal year 2020.

We have said goodbye to several faculty and staff members. We have also welcomed many new faculty and staff who have joined or will soon join the Snow College family of employees.

We look forward to a bright year of progress and enthusiasm for the great things happening at this wonderful college. Snow continues to enjoy the recognition and praise of generations of successful students and alumni.

#### **COVID-19 Funding**

In response to the COVID-19 pandemic, the federal government distributed relief funds to colleges and universities across the country. There have been three rounds of funding and Snow College has received money each round. The money distributed to higher education has been split into two portions: one portion to be used to aid students and the other portion to aid the institution. In total, Snow College has received \$7,344,930 for student aid and \$10,098,575 for institutional aid.

Snow College has used the first two rounds of student aid as direct payments to eligible students. Eligibility requirements changed after the first two rounds. For the third round of student aid, \$4,654,853, Snow College rolled out the "Up to 14 Credits for Free" program. This program was open to all new and returning students. After the student pays for the first 6 credits, Snow College will cover the next portion up to 20 credits per semester. The institutional aid portion has been used for technol-

ogy enhancements in transitioning to online education during the shutdown, sanitizing stations and materials, and reimbursing lost revenue as a result of the pandemic. This funding has been critical for Snow College to continue operations and prepare for future disruptions to Snow College's regular teaching models.

## **Key Legislation of Interest** to Snow College

The FY22 Snow College general fund budget includes \$2,564,119 of new budgetary demands above those of FY21. Snow's total FY22 budget totals \$44,149,457. This includes \$90,200 from the State's General Fund, \$32,775,800 from the Education Fund, \$405,800 from the Education Restricted Fund, (\$33,271,800 total State funds), and \$10,877,657 from Dedicated Credit revenue (tuition). The details of the matching approved expenditures budget for FY22 are shown at the end of this narrative.

An itemized detail of the new appropriations we received from the Utah State Legislation and descriptions are included below:

**FY 2022 New Appropriations:** Snow received a total of \$2,967,700 in new ongoing state appropriations. \$853,600 was received in Compensation/Health/ISF Rates, \$1,031,800 for Technical Education, \$500,000 for Concurrent Enrollment obligations, as well as \$582,300 in Performance Funding for fiscal year 2022.

#### Technical Education Tuition Offset: (\$526.000)

In an effort to build out the technical education programs, Snow College received the first round of funding for a tuition offset. Technical colleges in Utah are funded at a higher portion by the State than a degree-granting institution. This is how the technical colleges charge less in tuition than a degree-granting institution. With direction from the Board of Higher Education, Snow College

SNOW COLLEGE FY22 GENERAL FUND BUDGET 2

tuition amount. This funding is to help offset the lower tuition revenue for the programs that have transitioned to this lower amount.

Concurrent Enrollment: (\$500,000) Snow College continues to grow the concurrent enrollment offerings. Many students across Utah take advantage of concurrent enrollment courses while in high school as an inexpensive way to earn college credit. Participating high school students are charged \$5 per credit hour. Because of the popularity of concurrent enrollment, Snow College has devoted additional resources to this program. The small payment from the students has been insufficient to cover the additional costs incurred. This funding will help balance the concurrent enrollment program and allow Snow College to continue to offer these courses to high school students.

Performance Funding: (\$582,300) This funding is provided by formula for reaching certain performance targets established by the Board of Higher Education. This funding allows administration to address critical needs across campus. For FY22, some of these critical needs include the Risk Management office, Information Technology, the Wellness Center, and bottleneck courses.

#### **Tuition and Fees**

Snow College requested and the Utah Board of Higher Education approved a 2.5% tuition increase for this next fiscal year. A range between 1.5 and 2.5% increase was presented during a truth-in-tuition hearing held March 4, 2021. The impact upon full-time resident and non-resident students of this tuition increase is outlined below:

Resident student:

Tuition Increase (2.5%) = \$44/semesterNon-Resident student: Tuition Increase (2.5%) = \$160/semester

will begin to transition technical programs to this lower Resident tuition and fees for full-time students will now increase from \$1,956 per semester in FY21 to \$2,000 for FY22, and non-resident tuition and fees will increase from \$6,578 per semester to \$6,738.

> These changes in tuition and fees were approved by the Board of Trustees at their regular meeting on March 19, 2021 as well as by the Board of Higher Education on March 25, 2021.

#### **Compensation and Salary**

A 3.0% provision was made by the Legislature to fund a merit increase in the base pay of higher education employees. A full 3.0% merit increase is therefore planned for all full-time employees (paid out of the general fund) at Snow who are not on disciplinary probation.

#### Retirees

Snow College is great because the people are good. This year, many faculty and staff members chose to retire after many years of service, and their contributions should be noted. The following employees completed their careers during this pandemic, and thankfully colleagues were able to wish them well in an outdoor, COVID-compliant event in the Fall. Dennis Faatz (Center for Global Engagement), Carol Green (Athletics), Lanny Olsen (Campus Services), Ron Lamb (English), John Stevens (Marketing), Eric Roberts (Richfield Campus), Elona Lund (Richfield Campus), Chase Mitchell (Teaching Technology Center), Kim Cragun (Home and Family Studies), Don Saltzman (Construction Management), Jeanne Tripp (Academic Advising), Kerry Hansen (Social Sciences), Tracie Bradley (Home and Family Studies), Bonnie Edwards (Human Resources), Mike Duncan (Campus Services), Joseph Papenfuss (Science), Jacquelyn Beck (Academic Advising), Jim Case (Richfield Campus), Jan Cragun (Academic Advising), Margie Anderson (Registrar's Office), Paul Gardner (Science), and Jim Kittlesrud (Information Technology).

#### **Facilities and Improvements**

Each year, Snow College, through the Directors of Campus Services on both campuses, submits requests to the State for help with needed upgrades and improvements in our physical facilities. These funds are supervised and disbursed by the Department of Facilities Construction and Management or DFCM, with final approval coming from Snow College administration.

Snow's original request for the coming year was \$4,776,986 of which six projects totaling \$3,001,466 have been awarded. The projects unfunded can be resubmitted the following year.

#### **Excitement is buzzing across the** College!

FY22 is shaping up to be another exciting year. The College continues to grow an online presence, while at the same time focusing on the face-to-face instruction that has earned Snow College the number one ranking in student success by the Chronicle of Higher Education. Continued efforts are being made to bring student housing to the Richfield campus. Athletics look to expand and bring more student athletes to campus. The volleyball team and football team both played in their NJCAA's national championship games and excelled both in and out of the classrooms. Fundraising campaigns continue for student scholarships. The College is currently seeking a partner to develop a new Urgent Care Center that would be accessible to students and the community.

These are just a few of the many notable items on the horizon for the College. Others are taking note of the college's accomplishments. Snow College had a strong showing in the Best of State awards this year. Snow was honored with the Curriculum Development award for its ability to adapt and provide an excellent student experience for Learn and Work students across the state of Utah. In addition to the college-wide award, three Snow

College employees were recognized for their excellent service to the students and greater community. Stacee McIff was named the best Higher Education Administrator for her work in partnering with business to bring job opportunities to rural Utah. Professor Jay Olsen was named the best College/University Teacher for his commitment to student success and his work in greatly expanding Snow's agriculture program. Finally, Barbara Dalene was recognized as the Educational Advisor of the year. Barbara goes above and beyond for her students and is a much beloved fixture of the advising center at Snow College.

These three individuals represent the "Spirit of Snow" that continues to resound on both campuses. Student success stories continue to be told, and the campus facilities continue to improve.

Respectfully submitted,

Carson Howell Vice President for Finance and Administrative Services

### **Detailed Budget Tables**

The budget tables on the following pages are provided as a source of information about the College general fund budget and includes summary data by department for salaries, wages, benefits, and current expenses.
